Start to learn playing game

How to Play

1. Each kid choose one colored airplane pieces to start the game.

3. Move a piece that's on the board clockwise around the track, the number of spaces indicated by the dice. The first player to get all of four of their planes to the center of the board wins.

2. Taxi a piece out of the hangar onto the board. This can only be done by rolling a 6. A roll of 6 gives that player another roll.

How to Play

1. Each kid has 12 chess pieces. For example, kid will get 3 pieces by rolling the three dices at a time which can be combined into 6. Then kid need to find where is on the board and move his/her piece onto 6.

2. Whose chess pieces first be fully engaged who wins
